CAREER OBJECTIVE

I am a dedicated Front-End Developer with a strong foundation in React, HTML, CSS, JavaScript, and diverse web development technologies. My experience includes developing dynamic applications and contributing to team projects. I am passionate about building user-friendly interfaces and solving technical challenges, looking to leverage my skills and knowledge in a collaborative environment

SKILLS

- **Frontend:** React.js, Next.js, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS
- **Backend:** Node.js, Express.js, Firebase, Supabase
- **Database:** MongoDB
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Figma, Chrome Developer Tools, Netlify
- **Others:** REST APIs, JSON, Responsive Web Design

PROJECTS

- **LocalServiceHub – Full-Stack Service Marketplace**

Next.js, Supabase, Tailwind CSS || [Client Site](#) | [Live Site](#)

- **Built a full-featured service marketplace** with booking, service management, and reviews.
- Implemented **Supabase Auth** (email/password + Google OAuth) and role-based access.
- Developed **real-time booking system** with **status updates** and **calendar scheduling**.
- **Designed responsive UI** with Tailwind CSS and integrated **Supabase DB & Storage**.
- Added **real-time notifications**, **error handling**, and context-based state management.

- **Food Cycle – Food Sharing Platform**

React, Node.js, MongoDB, Firebase || [Client Site](#) | [Server Site](#) | [Live Link](#)

- Built a food-sharing platform **connecting donors and recipients to reduce waste**, with **real-time listings, search, and filtering**.
- **Developed secure auth using Firebase** (email/password + Google) with **protected routes**.
- Implemented **RESTful APIs** with **Node.js/Express** and **MongoDB Atlas** for donations, requests, and user data.
- Designed a responsive, accessible UI using **Tailwind CSS & DaisyUI**, **optimized** for mobile and desktop.
- **Added validation**, sanitization, **error handling**, and scalable architecture.

- **GreenNest – Plant Care & E-Commerce App**

React, Firebase, Tailwind CSS, Context API || [Client Site](#) | [Live Link](#)

- Developed a plant browsing app with search, filtering, and detailed pages with booking UI.
- Implemented Firebase auth (email/password + Google), password reset, and profile management.
- Built Home, Gallery, Plant Details, Profile, and Auth pages using React Router.
- Designed responsive UI with Tailwind CSS, DaisyUI, Swiper carousel, and reusable plant card components.
- Managed plant data from a local JSON file and user state via React Context API.

EDUCATION

Diploma in Physiotherapy || Armed Forces Medical Institute (AFMI), Dhaka Bangladesh. (2019-2023)

LANGUAGE

Bangla - Native || **English** - Comfortable
